

Lamellfärger 25mm

2021-05-01 – sammansatt av Nilssons Persienn Industri AB

Samtliga aluminiumpersienner är:

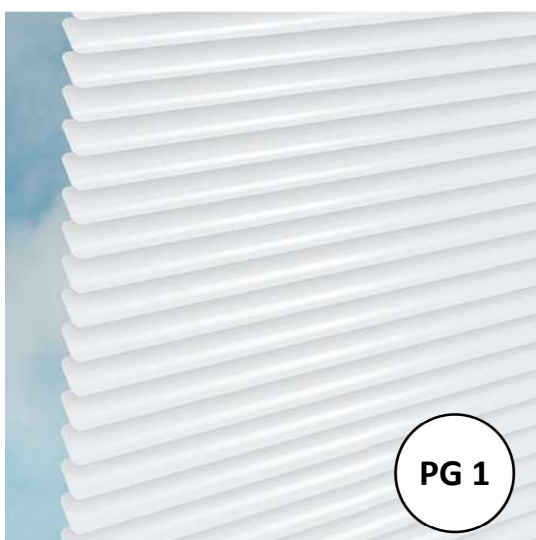

- Flamsäkra
- Tål fuktiga miljöer
- Tvättbara med fuktig trasa
- Bestående av minst 90% återvunnet aluminium.

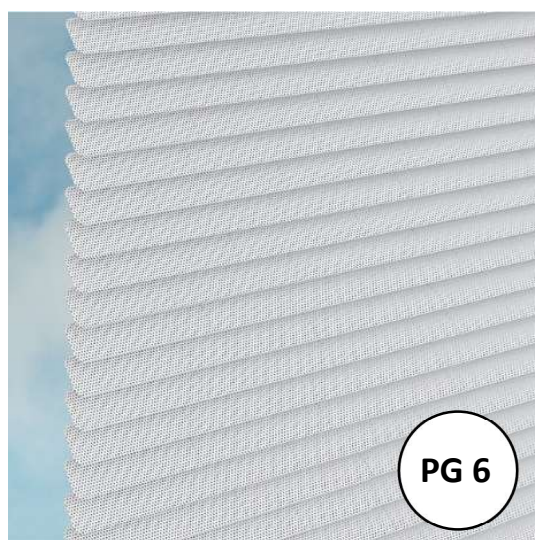

'P' i färgkoden står för att lamellerna har hål i sig. Observera att detta kan ge ett ökat slitage på persiennens linor vid användning av produkten.

Prisgrupp

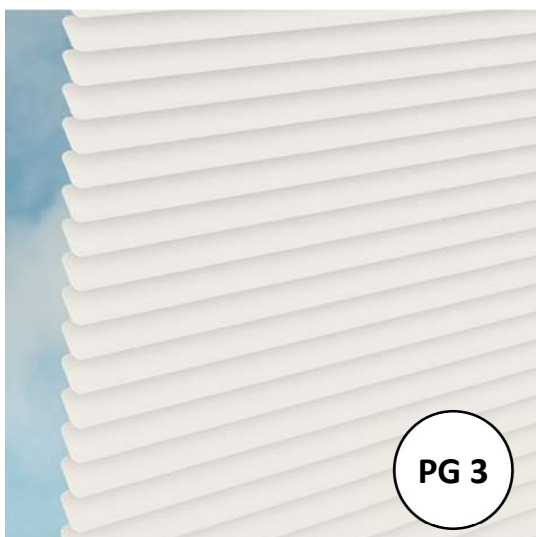

Se lista över tillhörande prisgrupp på sista bladet i detta dokument. Bilderna är markerade med 'PG' där exempelvis 'PG 1' betyder att färgen tillhör 'Prisgrupp 1'.
